## About Me

Experienced Full Stack .NET Developer with 3+ years of experience delivering enterprise applications at HCL and Xelentor. Skilled in .NET Core/.NET 9, C#, MVC, REST APIs, React.js, Node.js, and PostgreSQL/MS SQL. Strong experience in clean architecture, building reusable npm packages, integrating APM tools like SigNoz, and working in Kubernetes-based microservices. Focused on creating secure, scalable, and high-performance applications with clean, maintainable code.

## Skills

- C#
- .Net Core
- .Net Framework
- .Net MVC
- LINQ
- ADO.NET
- Entity Framework
- MSSQL
- React
- Node.js
- HTML
- CSS
- JavaScript/jQuery
- TypeScript
- Git & GitHub
- Jira
- TFS

## EXPERIENCE

### Software Developer | Xelentor Technologies Pvt. Ltd.

SEP 2025 – Present

currently working at **Xelentor Private Limited** as a **Software Developer** contributing to the Kimball.io client project, across backend, and frontend, areas using .NET 9 Core API, .NET 9 MVC, React.js, Node.js, PostgreSQL, and Kubernetes. I developed scalable backend services with clean architecture and integrated SigNoz APM for performance monitoring in APIs and console apps. I also created a private Node.js npm package for centralised frontend performance tracking, built a secure Node.js proxy for backend routing, and integrated the package into a React application.

### Software Engineer | HCLTECH PVT LTD.

JUL 2022 – SEP 2025

I developed and maintained web applications using .NET Framework and ASP.NET MVC, working closely with clients and teams for requirement analysis and timely delivery. I implemented business logic with C#, MVC, LINQ, Entity Framework, and ADO.NET, and built responsive UI components using HTML5, CSS3, JavaScript, jQuery, AJAX, and Bootstrap. I optimized SQL queries, stored procedures, triggers, and views for efficient data handling, and managed Windows Scheduler and SQL jobs for automation. Additionally, I developed RESTful APIs using .NET Core 8 and used Postman for testing and integration.

## Role And Responsibilities

- Developed scalable applications using .NET 9 Core Web API, .NET MVC, .NET Framework, C#, Entity Framework, LINQ, ADO.NET, and implemented clean-architecture-based RESTful backend services.
- Worked on frontend development with React.js, creating reusable components, integrating packages, optimizing UI performance, and developed a private Node.js npm package for centralized frontend performance monitoring.
- Built a secure Node.js proxy server for backend API routing, token validation, CORS handling, and improved integration flows; integrated SigNoz APM for distributed tracing in .NET Core APIs and console apps.
- Managed MS SQL Server operations, including schema design, stored procedures, triggers, views, performance tuning, and automated SQL/Windows Scheduler jobs.
- Collaborated with clients and cross-functional teams for requirements, debugging, deployment activities, and used Git, GitHub, and Jira for version control, sprint tracking, and workflow management.

## Education

### 1. B.Tech in Electrical & Electronics Engineering

Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal  
CGPA: 8.9 | Year of Completion: 2022

### 2. Higher Secondary (12th) – Science (PCM)

Madhya Pradesh Board of Secondary Education (MP Board)  
Percentage: 82% | Year of Completion: 2018

## Activities & Interest

- Technology exploration
- Problem-solving
- Playing Cricket and Chess
- Reading fiction and non-fiction books
